Drive Safely – School's Back in Session

By Adrienne Robillard

Valle Verde Elementary School, serving transitional kindergarten through 5th grade students, is located on Peachwillow Lane within the Woodlands neighborhood. Please drive safely throughout the neighborhood, including along Peachwillow, as school started last month and kids who attend Valle Verde and other area schools are walking, biking, and skateboarding,

as well as being dropped off by parents who are driving. The speed limit is 25 mph on Peachwillow, and there is a marked crosswalk at Peachwillow and Wintergreen Lane. Be smart and make safety a priority.

Be Smart and Be Safe

ADVICE FOR A SAFE HALLOWEEN

Halloween is almost here!! To keep your children safe this Halloween, here a few tips from the website <http://www.halloween-safety.com>:

- Children should always go out trick or treating accompanied by a responsible adult. If you have a group of kids going, the parents should choose two or three of them to go along and keep an eye on things.
 - Plan a safe route so parents know where their older kids will be at all times. Set a time for their return home. Make sure that your child is old enough and responsible enough to go out by themselves. Make sure that they have a cell phone.
 - Let your children know not to cut through back alleys and fields if they are out alone. Make sure they know to stay in populated areas and not to go off the beaten track. Let them know to stay in well lighted areas with lots of people around. Explain to them why it can be dangerous for kids not to do this. If they are going out alone,
- 
- they are old enough to know what can happen to them in a bad situation and how to stop it from happening.
 - Instruct your children not to eat any treats until they bring them home to be examined by you. This way you can check for any problem candy and get the pick of the best stuff!
 - Instruct your child to never go into the home of a stranger or get into their car. Explain why this is not a good idea and what to do if someone approaches them and tries to talk to them.
 - Make sure your child carries a flashlight, glow stick or has reflective tape on their costume to make them more visible to cars.
 - Let them know that they should stay together as a group if going out to Trick or Treat without an adult.

Make Space in Your Garage and Closets October Reuse and Cleanup Day

By Adrienne Robillard

Is your garage like mine, ready for a clean sweep? The twice-yearly Reuse and Cleanup Day provided by Central Contra Costa Solid Waste Authority is coming up in October. This is a convenient way to donate reusable items curbside during the scheduled garbage community cleanup. You will receive a flyer approximately two weeks before your cleanup date. To find out the exact scheduled date for your service area, call Allied Waste Services at (925) 603-1144.

All single-family households in the CCCSWA's service area are entitled to three (3) garbage special clean-ups annually. Two are community clean-up days and the other you can schedule individually. To schedule an individual clean-up call AWS at (925) 603-1144, option #1 (please call at least two weeks in advance).

Additionally, Valley Waste Management (VWM) offers special clean-ups for yard clippings and/or recyclables at no additional cost. You may use this service once a month. Call VWM at 935-8900 to schedule.

Fireplace and Chimney Safety Tips

With the change of seasons, comes the arrival of cold, rainy weather or what some people call "Fireplace Weather." If you have a working fireplace and want to use it this fall and winter, it's important to plan ahead to make sure your fireplace and chimney are in safe working order. However, if you do not want to do the dirty stuff of going through and inspecting and cleaning them, you can hire a certified and reputable chimney sweep to inspect your chimney and make repairs if needed. According to J. Holmes, a writer for ezinearticles.com, here are some fireplace and chimney safety tips to follow:

- Perform regular fireplace and chimney inspection and cleaning at least once a year to ensure it is functioning properly.
- Check the exterior structure of the chimney for damages and make repairs if necessary.
- Install a protective cap to keep the area around the chimney free of leaves, tree branches, bird nests, animals, and other debris.
- Inspect the fireplace interior for cracks and loose bricks and repair them if found.
- Use natural logs whenever possible. When using artificial logs, make sure to follow the package directions given.

- Always see to it that a good fire screen is in the fireplace.
- Keep materials such as papers, plastics, batteries, etc., away from the fireplace.
- Set your damper so the draft will remove the smoke and gas when you turn on the fireplace.
- Remove the ashes at least once a week and store outside in a non-flammable container with a tight lid.
- For gas and propane fireplaces, check the fan operation, gas pilot safety system and thermostat, and clean pilot and burners.
- Replace fireplace tools if they are damaged.
- Do not burn garbage, charcoal, or plastic materials in the fireplace.
- Never use gasoline or other liquid to start the fire.
- Keep the small children away from the fireplace and do not leave it unattended.
- Make sure to completely put out the fire before going to bed or leaving the house.

Cheddar Gougeres Recipe

Prep Time: 15 mins

Cook Time: 30 mins

Makes: 45-50 Gougeres

Difficulty: Medium

Ingredients:

- Oil or butter for greasing the pans
- Combine for DOUGH;
- ½ cup (1 stick) unsalted butter
- ½ cup whole milk
- 1 teaspoon Dijon mustard
- ½ teaspoon salt
- ⅛ teaspoon cayenne pepper
- ½ cup water
- 1 cup all-purpose flour
- 4 large eggs
- 1½ cups grated sharp cheddar cheese (about 5 ounces)

Directions:

1. Heat the oven to 450°F. Line two baking sheets with foil or parchment paper, and lightly grease the lining.
2. Combine DOUGH in a medium saucepan over medium-high heat.
3. When the mixture comes to a boil, reduce the heat to medium-low and whisk in the flour.
4. Cook, stirring constantly, until the mixture forms a ball and dries out slightly, about 3 minutes.
5. Transfer the flour mixture to the bowl of a stand mixer and beat it with the paddle attachment for 1 minute.
6. Beat in the eggs, one at a time, waiting until each egg is fully incorporated into the dough before adding the next.
7. When all the eggs are incorporated, stir in the cheese.
8. Drop the batter by the scant tablespoonful onto the baking sheets, leaving 1 inch between gougeres.
9. Bake at 450°F for 7 minutes.
10. Reduce the oven temperature to 350°F and continue to bake until the gougeres are golden brown, 18 to 20 minutes.
11. Immediately after removing from the oven, poke each gougere once with a toothpick, sharp chopstick, or skewer to allow steam to escape.

Serve hot, warm, or at room temperature.

WHAT'S HAPPENING IN OUR LOCAL MARKET? ARE WE AT A TIPPING POINT?

Although we have been riding a fast and furious road to recovery and market conditions clearly favor sellers there are some indications that things may be at a turning point.

Everyone realizes that mortgage rates will most likely not be coming down, and housing is still relatively affordable. Investors are playing a smaller role and there are fewer all cash offers. Fewer listings are under contract within a week or two as we saw a few months ago and bidding wars have cooled. The market is moving into a state of more measured and sustainable recovery. The sharp rise in interest rates did cause a pause but continued recovery is on the way as everyone adjusts to the new norms.
